ABOUT CAMP

Since 1976, our Summer Camp programs have blended hands-on science with outdoor, experiential education to create the best summer camp experience for kids aged 5 to 17. This year we will welcome over 1,000 unique kids to camp for the Summer of Curiosity.

Each week we run seven camps: Disco, Day, Adventure, Keystone Mountain Adventure, Keystone Voyager, and NOVA—averaging 145 kids a week.

The breadth of camp programs we offer ensures that kids find the perfect camp for their interests, experience, and goals for growth year after year. In 2018, 62% of the kids that joined KSS Summer Camp were returning campers. As kids progress through our camps they gain more advanced outdoor experiences, leadership opportunities, and scientific learnings.
